

WORDS *in the Wild*

Summer Institute

Learn to teach reading as a science!

Develop the skills and confidence to joyfully incorporate literacy into your programs. We'll cover read aloud and story time strategies, 1:1 support of individual readers and writers, plus hidden opportunities for language and literacy development. Apply and practice these new skills in the field with our campers. Help your students have an enjoyable experience with reading and writing while igniting their sense of curiosity!

Dive deep with our full
